PROCEEDINGS 1 THE VIDEOGRAPHER: We're now going on the 2 Today's date is September the 23rd, 2024, and 3 the time is 9:03 a.m. This is the Video Deposition of 4 Benjamin Graf. 5 If the attorneys present could please state 6 7 their appearances, after which the court reporter will swear in the witness. Michael Thad Allen for the MR. ALLEN: 9 Plaintiff. 10 MR. WALTON: Ben Walton for the 11 Defendants. 12 MR. STOWERS: Renaldo Stowers with the 13 University of North Texas System, Office of General 14 Counsel. 15 BENJAMIN S. GRAF, Ph.D., 16 having been first duly sworn, testified as follows: 17 DIRECT EXAMINATION 18 BY MR. ALLEN: 19 Could you please state your name for the 20 Q. record? 21 Benjamin Graf, G-R-A-F. 22 Α. You anticipated my next question. 23 Q. Have you ever been deposed before, Professor 24 Graf? 25

- A. No, this is the first.
- Q. Okay. So the first question I'd like to ask, is there anything that would interfere with your ability to answer questions truthfully today?
 - A. No, not to my knowledge.
- You are not on any medications that would
 affect your memory?
 - A. No, just coffee.
- Q. You don't have any psychiatric or mental condition that would affect your memory or ability to answer questions today?
- 12 A. I don't have any psychiatric conditions, no.
- 13 Q. Thank you.

- So if I ask a question at any point today, and you don't understand the question, you want clarification, please don't hesitate to interrupt me at any time. Is that clear?
 - A. Yes.
- 19 Q. By the same token, if you do not ask for clarification, I'll assume that you understood the question as asked. Is that also clear?
 - A. Yes.
 - Q. Okay. Please explain what you did to prepare for your deposition today.
 - A. I had a consultation and coaching with my

 - A. Okay.
- \circ . But I would like to know if you consulted any documents in the course of your preparations.
- A. Some of the UNT attorneys provided a copy of the faculty statement and the graduate student statement, both of those statements.
- g. By that, do you mean documents that were sent to the dean, Dean John Richmond, in the July 25th to July 30th time frame, with the signatures of the faculty and graduate students on them?
- A. I'm not sure if they were provided to the dean or not. Without looking at it, I wouldn't really -- I'm not sure.
- 18 Q. You'll be able to identify those documents when 19 we present them in the course of your deposition, though, 20 correct?
 - A. Yes. I couldn't recall every detail just from rote memory, but --

- 24 A. -- yeah.
- 25 Q. And were there any other documents, in addition

conversation, coaching.
          Did you take any notes or create any record
     0.
of your preparations?
          I just took some notes on the formalities of
     Α.
the deposition and just the coaching on how to go about,
you know, the deposition.
                            Ben, is it your position that
                MR. ALLEN:
that's work product or attorney-client communications?
                             Yes.
                MR. WALTON:
                                   I was just about to
instruct the witness. Whatever notes he may have taken
as we were discussing attorney-client communications,
those notes are not here, they're not present, and they
reflect the work product of Counsel.
          Have you talked to anyone else besides your

attorney about your deposition today?
     Α.
          No.
          I want to transition now and begin asking you
     Q.
about your career at the University of North Texas --
```

Can you just give me a brief summary of your

-- and some of the background.

```
undergraduate degree? And by that, I mean, not your work career yet. We'll get to that. Your degrees, where you earned them, when.
```

- A. Okay. So my first degree, my undergraduate degree, was in music education. And I went to Towson University.
 - Q. Can you state -- Towson?

- 8 A. Towson. Towson, T-0-W-S-0-N, Maryland. And
 9 that was in music education, instrumental, K through 12
 10 certified.
 - Q. When did you complete that degree?
- 12 A. That would be completed in 2008 as far as I can remember on the spot today.
 - Q. Um-hum. And that was a BS? BA?
 - ${\tt A.}$ That was a BS as far as I can -- as far as I can remember, that was a BS.
 - Q. And what did you do next?
 - A. I took several auditions for graduate schools in trumpet performance, one of those being the University of North Texas. I also auditioned at Peabody Conservatory and the University of Massachusetts. And I ended up coming to the University of North Texas.
- 23 Q. When did you enter the University of North 24 Texas?
 - A. The subsequent fall. So as far as I can recall

today, that would be 2008, August.

- Q. And what did you -- that degree did you pursue at the University of North Texas?
 - A. Trumpet performance, Master's of Music.
- Q. What kind of career does a Master's in Performance prepare you for, whether it's trumpet or another instrument?
- A. A Master's of Music in Performance is oriented toward playing your instrument full-time.
- And I would -- I would personally also include teaching your instrument. For example, private lessons would be an example.
 - Q. Did you complete that degree?
 - A. Yes.

- Q. What year did you complete your Master's in Performance at the University of North Texas?
- 17 A. 2010.
 - Q. 2010. And what did you do next after that?
- A. So during my performance degree, I got a fellowship for music theory, a teaching fellowship. And I decided to pivot and change my major for the doctoral level to music theory.
- 23 Q. Sorry. I don't know if I understood. You changed to a doctorate level degree program?
 - A. Yes. I wanted to -- I pivoted my major from

```
performance then to music theory.
```

- Q. And did that mean that you didn't finish the performance degree, or you did?
 - A. No, I did.
 - ي. 0kay.

- A. I did.
- $\ \ \,$. All right. And so approximately what year was that, that you began the Ph.D. program? In music theory, right?
- 10 A. That would be 2010.
- 11 | Q. Okay.
 - A. And the boundary between my master's and doctorate is likely a little bit blurred because there were some graduate courses that I think could have counted for both degrees. I took also some summer classes to catch up in coursework. I think that's reasonable to say.
 - Q. And you said you received some sort of fellowship from the University of North Texas, correct?
- 20 A. Right. So I had gotten a TA -- TA/TF position.
 21 I can't remember exactly how -- exactly how that went
 22 down. But I had a TA at first.
 - \circ . And what is a TA?
 - A. Teaching assistant. So you are not the instructor of record for the course. And then that

```
Document 82-31 Filed 12/20/24 BENJAMIN S. 3644F, Ph.D.
   transitioned into a TF position subsequently.
1
               Which is?

               Teaching fellow.
3
         Α.
               And how are those different?
4
         0.
               The teaching fellow is the instructor of record
5
         Α.
   for a class, and the teaching assistant, you
6
7
   are -- is under a supervising faculty member.
               Did you finish your Ph.D.?

               Yes.

               What year did you finish that?
10

               2016 as far as I can recall today. I'm trying
11
         Α.
12
   to remember.
         Q.
```

- During that time, did you work with my client, 13 Timothy Jackson, in any way? 14
 - Yes, I worked with Dr. Jackson.

- Why don't we back up and explain how you first 16 Ο. came to know Timothy Jackson. 17
- 18 Sure. I had him as a -- as a professor in Α. 19 class. Yeah.
- Can I ask, was this as a graduate student in 20 Ο. the Ph.D. program or already as a Master's in Performance 21 student? 22
- That's a good question. I'm trying to remember 23 Α. the first class I took with Dr. Jackson. 24
- may have taken one. I may have taken a class with him 25

```
during my master's. But I can't -- I couldn't really
1
   pinpoint that for you. I'm sorry. I wish I could today.
2
   But it would be -- if it wasn't at the end of my
   master's, it would have been early on in my Ph.D. Yeah.
4
             And how did your relationship to Professor
5
        Ο.
   Jackson evolve?
6
7
             I really learned that -- can you hear me okay?
        Α.
           I discovered that he was really a brilliant
8
   Sorry.
   analyst and a good teacher, I would say.
9
             Analyst of what?
10
        Ο.
             Analyst of music theory. I saw him as an
11
        Α.
12
   expert that I wanted to study with.
             And did you study with him for your Ph.D.?
13
        Q.
             Yes.
14
        Α.
15
```

- And explain for the Court what that means. Q.
- So for my Ph.D., I would say most doctoral Α. students that I can, you know, recall in the College of Music have a supervising professor for their main project, whether that be a recital or dissertation.

In that case -- in my case, that would be a dissertation. And Dr. Jackson was my dissertation advisor, primary advisor for my -- for my dissertation.

- Okay. And as the supervising primary professor and primary advisor, is that the same thing?
- Are those just synonyms? 25

16

17

- $\ensuremath{ \mathbb{Q}}.$ Is it fair, within the bounds of a professional relationship, did you get to know
- 18 Professor Jackson very well?
 - A. I would say as a professional. You know, I think we kept it professional. But of course, when you work with somebody a lot, you did have different levels of professional relationships.
 - Q. Sure.
- 24 A. You know, you could have somebody, you just had 25 a student in class one time. And then you could have

someone who you did private lessons with, and you might consider that person to be closer than a person who was just in your course one time.

- Q. How close would you describe your relationship with Professor Jackson?
- A. I would say pretty close. You know, I think I spent a lot of time with him working on my dissertation, a lot of lessons obviously. And he helped me out a lot, yeah.
 - Q. Is it fair to say he was a mentor to you?
- A. I think he did mentor me specifically -- specifically on analyzing music.
- Q. And as a music theory Ph.D., that was pretty much the focus of your work, correct? Analyzing music?
- A. I think it was a focus, a focus. I'll qualify that a little bit and say it was a focus. I think there's several aspects to a Ph.D., especially in music theory, you know, teaching being one of those aspects, service being one of those aspects, research being another aspect.
- I think in terms of music analysis,

 Dr. Jackson, you know, definitely was taking a lead

 for me. And I really -- I really respect him for it.
- Q. Did you ever meet with Dr. Jackson at this private home?

- A. Yes, a few times. A few times, I went to his private home to work on dissertation, have him read some things that I was working on.
- $\ \ \, \bigcirc$. Did you meet other members of his family, such as his wife?
- A. Yes.

- 8 A. Heejung.
- 9 Q. Heejung. And she's an accomplished pianist 10 herself. correct?
- 11 A. Yes. I would consider her to be accomplished, 12 yes, definitely.
- 13 Q. So you got to know the family as well as simply 14 your professor who was your dissertation advisor?
- 15 A. Yes, I did know Dr. Jackson's family. We
 16 didn't spend a lot of social time together. I was only
 17 there for my lesson. But I did know his family, of
 18 course.
- 19 Q. When you say lesson, what do you mean?
- A. A lot of times, I would present something that I wrote, something that I worked on. And Dr. Jackson would give me feedback on it.
- 23 Q. So these weren't piano lessons or musical lessons in that sense?
- 25 A. No, no. They were definitely theory and

analysis lessons.

- Q. Did you come to work for the Center of Schenkerian Studies in any capacity?
 - A. I did.
- Q. Could you explain your work for the Center of Schenkerian Studies?
- A. Sure. Dr. Jackson and Dr. Slottow approached me about working with the Journal of Schenkerian Studies as part of -- during my Ph.D. time. I don't have the exact date for that, though. If I knew it, I would say it, but I don't remember the exact date.
- 12 Q. But it was in the course of your Ph.D.
 13 studies?
- 14 A. Yes.
 - Q. Can you describe the work of the Center as you came to understand it?
 - A. Good question. I really didn't design the mission for the Center. Based on what I know, the name, Schenkerian Studies, you know, that -- to me, that would mean the work of Heinrich Schenker and his students. But I don't want to elaborate too far because I didn't really craft the mission for the Center as a whole. Yeah.
 - Q. I'm asking about your experience. In your experience, what did the Center do?
 - A. In my experience, the Center published the

```
Journal for Schenkerian Studies.
                                    That was the one
1
  thing that the Center did. I'm trying to recall other
2
  activities.
               Maybe you can say -- maybe somebody else
  would say that the Center would support research projects
4
  that were in the Schenkerian area of focus. That might
5
  be something reasonable to say. But yeah, I'll leave it
6
7
  at that, because like I said, I don't really -- I didn't
  craft the mission statement or anything like that.
```

- Q. And we'll get to the Journal of Schenkerian Studies in a minute, but one last question on that score.
- Did you consider your dissertation to have engaged in Schenkerian analysis?
- 13 A. Yes. Schenkerian analysis is a part of my 14 dissertation, yes.
 - Q. And again, because this is for the Court, they may not know anything about Schenkerian analysis, as have the lawyers before this case.
 - A. Right, right.
 - Q. Can you just give a two or three sentence explanation of what Schenkerian analysis is for someone who has absolutely no background in music?
 - A. That's a really hard question. I'll try to summarize it as best I can.
 - Q. Please.

A. Let's see. Dr. Jackson would be a lot better

at this question than I would be.

Schenkerian analysis is a way or methodology of approaching music analysis that considers music on structural levels and the insights that one can glean from determining the way those levels are put together and the way that those levels interact.

- Q. Are those levels organized in Schenkerian analysis hierarchically?
- A. Yeah, a lot of the times. I mean, I think it depends on how traditional your approach is to Schenkerian analysis. Some people are more strict. Some people are more modern. And just with any theory, you could always have a modern -- more modern approach or more strict traditional approach. So yeah.
- Q. And could I interrupt there and say when you say a modern approach, do you mean by that people in the present adapt, apply differently, try to advance the theory, things of that nature in their studies?
- A. Yeah. I think with any theory or with any methodology, even if it was form analysis or if it was different types of analysis, everyone is going to re-visit that theory and try to clarify and qualify and move forward different aspects of the theory, not necessarily in a critical way. It could be. Of course, that's one option, but yeah. Move forward the theory in

certain ways.

- \circ . And is that what you considered yourself to be doing in your dissertation?
- A. Yeah, yeah. In a certain way, I think I did, yeah.
- Q. Is there anything that prevents a scholar such as yourself from applying Schenkerian analysis to Non-Western music?
- A. Is there anything that prevents? That's also a good question. I think not necessarily. It really depends. That's a really hard question to answer succinctly. It depends.
- Q. Let me put it this way. Are you aware of music theorists applying Schenkerian analysis to Turkish music, say?
- A. I could not cite a study off the top of my head that does that. But you know, there could be one out there that I'm just not aware of. I don't -- you know, that's a -- especially music publications that occur in other languages and things, I wouldn't be able to cite it off the top of my head today.
- Q. Do you consider your dissertation to have been racist?
- A. I think it depends. That's a hard question to, you know, commit. I don't think a yes or no would really

capture the full answer there.

- A. I was never accused of being racist for applying Schenkerian analysis.
- Q. Do you -- were you ever accused of being, I don't know, systemically racist for applying Schenkerian analysis in your dissertation?
- A. Not in my dissertation, not that I'm aware of.
 - Q. And I assume you consider yourself white?
- A. I consider myself to be white.
- 13 Q. And I don't know. My guess is Graf is a German 14 name in origin?
 - A. Austro-Germanic origin, but -- you know, I have various family histories, but...
 - Q. Sure. As do most of us.
 - Did you consider yourself to be applying a white racial frame to the study of music?
 - A. That's a really good question. I think the idea of a white racial frame is a complicated one that doesn't necessarily tie directly to Schenkerian analysis. I think Schenkerian analysis is a component of something that could be considered heavily Astro-Germanic.
 - Q. And Heinrich Schenker himself was born in the

```
Austrian Empire, correct?

- A. I don't want to commit to a certain biography of Schenker that other people would know better than I would.
- 5 Q. That's okay. I'll strike the question. We can 6 move on. That's all right.
 - Let's talk about the Journal of Schenkerian Studies. When did you come in contact with the Journal of Schenkerian Studies?
- 10 A. When did I come in contact with it? I want
 11 to say my first contact with the JSS was probably just
 12 reading an article out of it.
- 13 Q. And by JSS, you mean the Journal of Schenkerian 14 Studies?
- 15 A. Yes, the Journal of Schenkerian Studies would 16 be the JSS.
- 17 Q. And if -- if, going forward, either one of us 18 refers to JSS, we'll understand we know what we means, 19 right?
- 20 A. Yes.
- 21 Q. That's the Journal of Schenkerian Studies?
- 22 A. That's fine, yes.
- 23 Q. Thank you.

- Q. Yeah. And I understand the limits of memory and pinpointing time. Is it fair to say when you had become a mature graduate student, this is when you were solicited to work on that Journal?
- A. Yeah, I think there's a certain level of expertise that you would need to be able to work on the Journal, so I think that's fair to say.
- 13 Q. Did you approach Professor Jackson to work on the Journal, or vice versa?
 - A. The way I remember it, Dr. Jackson was seeking help to edit the Journal, but I don't remember exactly how that conversation happened.
 - Q. And did you say yes?
 - A. I said yes.
 - $\ \ \,$ $\ \ \,$ $\ \ \,$ And what was the role for you on the Journal at that time?
- 22 A. My role when I started out was part of a team, 23 so I had a co-editor. His name was Ryan.

- 25 A. Taycher.

 - Q. How long did you have the help from this -- or help to the co-editor, Taycher?
- 12 A. That's a really good question. I think I want 13 to say Ryan and I worked together for a year or two.
 - Q. Um-hum. And at some point, you became the sole graduate student editor of the Journal, correct?
 - A. Ryan dropped out. Ryan dropped out.
- Dropped out of the program or just the Journal?
- 18 A. He dropped out of his role as co-editor. And I 19 don't -- I would have to ask Ryan or, you know, you would
- 20 have to ask Ryan why and all of the reasons why.
- But yeah, it ended up just being me for a little while there.
- 23 Q. And for a little while was how long? From when 24 to when, if you know? I mean, I think we know your 25 relationship to the Journal came to an end in 2020,

- Well, and the title page of the Journal would show when you were the editor, right?
- 12 Um-hum. It should, yeah. You would think you Α. could follow volume by volume and see which ones had two 14 names.
 - And during the time you were an editor, did you solicit articles for the Journal?
 - At times, but rarely. It depended. Ιt Α. depended on the circumstance and certain things, yeah.
 - Q. But you would do that from time to time?
 - Rarely. You know, I honestly can't recall a Α. time where -- well, let's think. I don't think there was a time where I solicited an article by myself that it But it's hard to say. actually wound up in print. What is soliciting an article? I mean, is that just a conversation with somebody at a conference where you say,

```

- Q. -- but in your experience as an academic and working with journal editors? What does that mean in your profession?
- A. I think there are different ways of soliciting. A more formal way to me would be writing out an email and describing what the title of the paper was that you are interested in or citing a specific type of research that you would like to solicit.

I think also, there's a more informal solicitation that occurs where you may see a paper or hear about some research, and then more informally ask someone in person if they're interested in publishing that. I think that would be different levels of soliciting articles.

- Q. And you've been a credentialed Ph.D. music theorist for almost ten years. If you finished in 2016, it's now 2024, right?
 - A. Years, yeah.
- 24 Q. And so in your experience, is that normal for 25 editors?

- Q. Describe what you understand by the peer review process of the Journal of Schenkerian Studies.
- A. I really don't have a specific procedure of peer-review process that I can -- that I can recall. Nothing that was really super formalized.
- 13 Q. Did you send articles that you wanted to 14 publish out for review?
 - A. Yes. A lot of the times, I would send out an article for review. That's true.
 - Q. And how would you select the reviewers?
 - A. What I tried to do as best I could is take someone who had an area of expertise that aligned with the subject matter of a given article.
 - Q. And the reviewer, would you tell them the name of the author?

- 9 Q. And that's called double-blind peer review, 10 correct?
- 11 A. Double-blind meaning two anonymous peer 12 reviewers.
 - and even though the author or the reviewer might figure out who the paper was authored by or who the reviewer was, you didn't expressly tell them, correct, as the editor?
 - A. I would try to avoid that, if possible, you know.
 - Q. Okay. How closely did you work with Professor Jackson as editor of the Journal?
 - A. I would say closely. But we worked a lot more closely on things like my dissertation than our work on the Journal.
- 24 Q. And he -- and you had mentioned Professor 25 Slottow, so let me back up. Could you state Slottow's

- full name for the record? And if you could, spell his last name, because I believe it's a bit unusual, for the court reporter.
- A. Sure. Stephen Slottow, S-L-O-T-T-O-W. And he also was an advisor to the JSS.
- Q. And so he and Professor Jackson were advisory board members, correct?

- 11 A. That is correct.
- 12 Q. And did you select reviewers principally from 13 the editorial board?
 - A. As best I could, as best I could. Sometimes people would be unavailable or they would not be able to -- they would not have time to do a review. So you would have to do your best to seek out somebody who could actually do the review on something.
 - Q. But it wasn't a requirement that you be on the editorial board, correct?
 - A. No, I wouldn't say that it was a requirement to be on the editorial board in my view.
- 23 Q. Let's leave out the year 2020 and 2019. Were 24 you ever told to censor anyone by Professor Jackson 25 during your work on the Journal?

No. Α. Were you ever accused of being racist for 2 Q. anything you published in the Journal?

- Oh, I didn't publish anything in the Journal. Α.
- Not you as an author; you as an editor. Ο. Maybe strike that question because you're pointing out an unclear part of it. Let me ask it a different way.

Were you ever accused of being racist for any article that you published as an editor in the Journal?

- Not that I recall, no. Not that I recall. Α.

 - Yes. Α.
 - So you knew that he had published articles Q. before you became editor, correct?
 - That is true. Α.
 - Did you know those articles? Did you look Q.

 14 dissertation, and I did do some lessons with him at his
 15 house.
 - Q. You even met his wife who's an accomplished pianist, correct?
 - A. Correct.
- 19 Q. You also worked closely with him on the 20 Journal, correct?
- 21 A. That's correct.
- 22 Q. Not as closely, you testified, as you did on 23 your dissertation, right?

 - Q. And did you value that mentorship?
- 13 A. Yeah.
 - Q. Can you state any racist actions that you believe Timothy Jackson committed while you knew him?
 - A. Any racist actions? That's a really tough question. I think it depends. I think, you know, one thing to clarify, you know, would be what constitutes a racist action.
 - Q. Well, what constitutes a racist action in your view?
 - A. I mean, in my opinion, purposefully --
 - Q. I'm not talking about your opinion. I'm saying what is a racist action that you would recognize as a racist action? Like burning a cross on someone's lawn?

           Would burning a cross on someone's lawn be a
racist action?
          I would have to look at the -- review the whole
situation in context.
          So you can't really identify a racist action
     Q.
from anything else, right?
          Well, one thing to consider is that what were
the race of the people involved and what was the context
of that. You know, if somebody -- if there was a fire,
and I had a necklace, a cross necklace, and it fell into
the fire, that may not be considered racist.
     Q.
          That's also not burning a cross on someone's

- Q. That's your testimony today?
- A. I think it depends on the situation, that -- it depends. It really, really depends, without knowing who was involved, what was the reasoning behind it --
 - Q. Sure.
- A. -- I don't -- it's hard to commit without having all of the information in front of me.
- Q. So let's go back to Professor Jackson.

 We've already established that you knew him very well as
 a dissertation advisee, as a mentee. You had years of
 experience working with this man, so you knew the context
 I'm asking about, and I'm asking you to identify any
 racist actions that you know of that Professor Jackson
 committed.
 - A. I think -- I think there are a lot of factors at play. Sometimes, if a certain party is excluded based on race, that could be considered by some people to be racist.
 - Q. Do you know that Jackson ever did that?
 - A. It would be hard for my position to say exactly what Dr. Jackson did or did not do.
- 23 Q. Why? You worked with him. You were an 24 editor on the Journal. You worked with him as a mentee. 25 You were in the same graduate program. You worked on

the Center of Schenkerian Studies and the Journal of Schenkerian Studies. What more context do you need, Professor Graf, to answer my question?

- A. I think it's hard to say what somebody else does on a day-to-day basis.
- Q. I'm talking about your direct experience.

 I'm not asking you to speculate. I'm asking you, based on your direct experience, knowing Jackson as closely as you did, can you identify any racist actions that the man committed?
- A. I don't -- I would have to go through and put myself in Dr. Jackson's shoes and read all of the messages and all of the communications and all of the correspondence. It's hard -- I can't -- I don't think that it's fair of me to put myself in Dr. Jackson's shoes and say, oh, he did something that was racist. I don't think that's fair of me to say.
- Q. It's not fair of you to say he did something racist?
- A. There are so many other things to clarify that are important clarifications.
- Q. So your answer is it is not fair to say that he did something racist?
- A. I think it depends on what your definition of racism is and how you contextualize certain actions and

```
certain statements.
```

2

3

4

5

6

7

8

10

11

12

- Q. So you can't give a clear answer to that question: Did Professor Jackson commit a racist action, to your knowledge?
- A. I would say that some people would consider the same action to be racist and somebody else consider that action to not be racist. I think that's --
- Q. I'm talking about you. I don't care what these other people think. I'm talking about you, Benjamin Graf, a defendant in a civil action. You realize you're being sued by the University -- excuse me, by my client, Dr. Jackson, right?
- 13 A. Yes.
- 14 Q. And the taxpayers provided you counsel, 15 correct?
- MR. WALTON: Form. Excuse me. Object to form. You are free to respond, if you know.
 - A. I think that's correct, to my knowledge.
- 19 Q. Yes. And the Attorney General's Office is here 20 defending you today, correct?
- 21 A. That's correct. I know. Assistant Attorney 22 General, right?
- MR. WALTON: You're free to respond to your knowledge.

- A. It is titled that, yes. I haven't look through all of the pages, but that's the title.
- I understand. And I just wanted to skip down.

 If you see in the lower right-hand corner,

 there are page numbers. In this case, JACKS 067, blah,

- 22 Q. I only have a few questions about this one 23 because, as you've already testified, you haven't seen it 24 before.

- Does that refer to your task as the current editor of the Journal of Schenkerian Studies, to the best of your knowledge?
- 14 A. As best I can recall. I haven't seen this document, but yes.
 - Q. And who is Yiyi Gao? Do you see the name right there underneath yours?
- 18 A. Yiyi Gao, to my knowledge, was also a doctoral 19 student at the University of North Texas.
 - Q. Did you work with her at the Center?
 - A. Honestly, no.

Q. Some -- it may come up that we refer back to them, and keep the pages together. At the end of the deposition, the court reporter will take them.

Now, let's also fast forward to the 2019-2020 time frame. In that time frame, did you get to know a fellow graduate student named Levi Walls?

- A. I knew Levi Walls, yes.
 - Q. Levi is how you say his name?
- 13 A. Yes.
- 14 Q. And how did you make the acquaintance of Levi 15 Walls?
 - A. That's a good question. I don't really know when we first met. But he taught as a teaching fellow at the University of North Texas, and I supervised the TA and TF graduate students.
 - Q. You were supervising the TA and TF students?
 - A. Yes.
 - Q. What job did you have in that capacity?
- 23 A. So I coordinate the assignments for ear training teaching.
 - Q. Say that again. I just didn't hear.

- A. Coordinate the assignments for ear training teaching, so -o. Ear training?
- A. Oral skills or ear training is another way to say it, you might know.
- 6 Q. That's a term of art in music composition, music instruction?
 - A. Yes.

2

3

4

5

8

16

- 9 Q. Okay. And did you become close to Levi -- Levi 10 Walls? Excuse me.
- 11 A. Maybe. I guess it depends on what you consider
 12 to be close. We didn't really spend much
 13 social time together outside of work situations.
- 14 Q. Did you come to work on the Journal of Schenkerian Studies together?
 - A. Yes.
- Describe how you came to work on the Journal of Schenkerian Studies together with Levi Walls.
- 19 A. I -- when I restructured my position at UNT
 20 with my boss at the time, my chair, Benjamin Brand, we
 21 had a conversation about withdrawing me from the Journal
 22 of Schenkerian Studies.
 - Q. What year was this?
- 24 A. To the best of my knowledge, this was 2019, 25 fall.

2

3

4

5

6

7

10

15

16

17

18

19

20

- Q. Okay. Describe your conversations with the department chair, Benjamin Brand, about withdrawing from the Journal.
- A. We had a discussion, that we didn't think that it would be the best use of my time at North Texas to be -- to continue to work in this capacity, because I was in a teaching position.
- 8 Q. When you say, "this capacity," as the editor of the JSS?
 - A. The editor of the JSS, correct.
- 11 Q. And you just brought up being in a teaching 12 position. So what teaching position were you in?
- 13 A. So my position, still is, a nontenured track 14 position that has no research requirement.

 - A. I was a visiting lecturer and then a senior lecturer and now a principal lecturer.
 - Q. Does that come with any job security at the University of North Texas?
- A. A visiting lecturer comes with little to no job security. The senior lecturer comes with some degree of job security. And the principal lecturer comes with relatively more, but not the most.
 - Q. The most being a tenured position or what?

- A. I think the most would be full professor, the most secure position. In my opinion, it would be full professor.
- \circ . Can you just describe briefly for the Court when you achieved those promotions and appointments?
- A. Yeah. That's a good question. Let's see.
 I had -- I'm going to do this as best I can.

In 2017, I would have been a visiting lecturer. And then I was able to get that renewed for one more year as a visiting lecturer. That puts us in 2018 fall.

And then fall 2019 is when I started having those conversations with my chair about what my position would be more permanently moving forward and what my best role would be at UNT.

- Q. And then what time were you promoted to principal lecturer? I believe that's the title you said.
- A. Yeah, that would be fairly recently. I want to say maybe 2020, but I'm not a hundred percent sure on that.
- $_{\mathbb{Q}}$. So let's -- if I say the Schenker controversy, do we understand that I'm referring to the kerfuffle that arose around the Journal of Schenkerian Studies in July of 2020? Is that fair?
- A. Sure.

14

15

18

19

20

21

22

23

24

- Q. So this would have been after the Schenker controversy with the Journal of Schenkerian Studies?
- A. Man, it's hard to parse that timeline, because I put together a lot of information on materials at different times and then it was submitted to different levels. And then when you get the promotion, I don't think you get your title changed until the following year, so it did overlap. I'm totally fine to say that it overlapped.
- Q. Let me ask it a different way. The Schenkerian controversy with the Journal of Schenkerian Studies didn't hinder your promotion to principal lecturer, did it?
- 14 A. No, it did not.
- 15 Q. Did the role you played in that controversy aid your promotion?
- 17 A. I don't think so. But it's hard to say because 18 I'm not on the promotional committee.
- 19 Q. I'm just asking about your direct knowledge.
- 20 That's fine.

8

9

10

11

12

13

- A. Okay.
- 22 Q. If you don't know, you don't know.
- 23 | A. Okay.
- 24 Q. So back to your relationship to Levi Walls and 25 your -- Levi Walls, excuse me, and your conversation with

```
Chair Benjamin Brand, these would have been, I believe you said, in the mid 2019 time frame?

A. Fall 2019, correct.

Q. And what is your teaching load as a lecturer?
```

- A. My teaching load as a lecturer is four courses in the fall and four courses in the spring. I can elaborate more, if you want, or --
 - Q. Do you teach summer courses as well?
- A. I did. I did at one point, but I haven't in the last few years. That's variable.
- 11 Q. Are those compensated extra? The summer 12 courses, I mean.
 - A. Typically, yes.
 - \circ 2. So is it fair to say in the parlance of academic professionals, that your load is 4/4?
- 16 A. Yes.

2

3

4

5

6

7

8

9

10

13

14

15

18

24

- 17 \bigcirc And you're on a semester system at UNT?
 - A. Fall and spring.
- 20 whatever someone says about a course teaching load, that that means that many courses per each semester, so 4/4 being four classes one semester, four classes the next semester, as you've described, correct?
 - A. That's correct.
 - Q. Okay. And again, we're just doing this so it's

explained for the Court.

So would you rate a 4/4 load in the academic profession as relatively heavy?

- A. Tough question. I think it depends on the nature of the classes you're teaching. I think it depends on the size of those classes. I think it depends on the level of those classes. There are a lot of factors involved. But on the surface level, I think that's fair, 4/4.
 - Q. It's certainly more than a 2/1 load, right?
- A. That would be a heavier teaching responsibility on the surface level, on the appearance.
- Q. Sorry. A 2/1 load would be heavier than a 4/4 load?
 - A. The 4/4 would be heavier than the 2/1 load.
 - Q. Thank you for clarifying that.
- A. Yes, sorry. Good clarification.
- Q. Okay. So what sounds to me like a reasonable conversation you were having with your department chair, Benjamin Brand, was that you had a lot of work, correct?
- A. Correct. And part of it was just trying to figure out what exactly my position was going to be moving forward.
- Q. Have you ever had any conversations with Benjamin Brand or other professors at UNT about becoming

```
a tenure track faculty member?
1
2
              No, not -- not yet.
              And in this fall of 2019 time frame, you wanted
3
        Q.
   to step back from the Journal of Schenkerian Studies,
4
   correct?
5
              I did.
6
        Α.
7
              About how much work was that working for the
        0.
   Journal as the student editor and then cum, I guess,
   lecturer/editor?
9
              Yeah, that's a good question.
                                              It depends on
10
               I think sometimes, there was a lot to do. But
11
   the time.
12
   other times, not too much.
              So you would rate the work as episodic; is that
13
        Q.
   fair?
14
              Sure.
15
        Α.

   of work?
17
18
              It can be.
        Α.
              And then other times, there's nothing that you
19
        Q.
   are really doing for the Journal?
20
21
              Right.
        Α.
              The Journal was meant to come out approximately
22
   once a year, correct?
23
              I think there's some flexibility there, but we
24
        Α.

could aspire to come out once a year.

- Q. Was there ever any complaints from the University of North Texas Press, that it didn't come out more often or anything of that nature?
 - A. That's hard to -- that's hard to recall.
 - Q. If you don't recall, that's fine.
- A. I don't recall any intense pressures. Yeah, I'll leave it at that.
- Q. Is it fair to say that if the University of North Texas Press was putting intense pressure on you, the editor of the Journal of Schenkerian Studies, that would be something that stood out in your mind?
 - A. Yeah.

- A. Anything else that I discussed. Really, just it was a conversation about reevaluating my position and giving me an opportunity to step back and not be -- no longer be in the position.
- $\ \ \, \bigcirc$. And you had been doing it at that time, I think, something like five years, correct? Give or take?

- Q. Um-hum. And the Journal of Schenkerian Studies was more of a research-type activity?
- A. Research or maybe service, depending on how you categorize, but certainly not teaching.
- Q. And it's fair to say, correct, that the Journal articles that would be produced by the Journal of Schenkerian Studies would count as scholarship, correct? MR. WALTON: Form.
- A. One, depending on how -- which article you are talking about and which -- you know, which specific publication. Another thing, the aim of the Journal would be to produce scholarship.
- Q. Now, I'm just trying to summarize, but is it fair to summarize that your discussion with Benjamin Brand was about withdrawing from the Journal as editor, correct?
- A. That was a part of our conversation about the nature of my position moving forward with UNT, yes. That was one part of it, yeah.
- Q. And you had either decided or realized that you were much more dedicated to teaching than the activities

of the Journal?
1

- Q. And you came to a good conclusion as far as you were concerned at that time?
- A. I think we came to an okay conclusion. I wasn't -- at that point, I didn't have as much of a horse in the race, metaphorically speaking. I was just letting them know that this is the way my position is changing, according to my boss.
 - Q. Right.
- A. So you need to figure out something and what's going to happen. I don't know how else to say it other than that.
- 13 Q. Sure. And it's -- it's America, right? You 14 don't have to do something if you want to take another 15 job, correct?
 - A. Right. I, you know, really didn't want to offer too many opinions on what the path forward would be if I wasn't going to be involved in that path forward.
 - Q. And what was the conclusion of your conversations with Professor Jackson and Professor Slottow about this transition?
 - A. The conclusion that I took away -- I don't know what Dr. Jackson or Dr. Slottow took away, but I can speak to my perspective, which was that Dr. Jackson wanted to keep a graduate student that had expertise in

- Schenkerian analysis in the position, not just a graduate student, you know, that had a different area of
- 3 expertise. It had to be someone who was studying
- 4 Schenkerian analysis, preferably with him that took over the reins.
- 6 Q. And the Schenkerian analysis is a very specialized field of study, correct?
 - A. I would say, yes.
 - Q. And it involves very complicated and specialized graphs?
- 11 A. True.

- 12 Q. And it involves a certain background knowledge 13 even to understand these graphs?
- 14 A. I would say yes.
 - Q. And even more to draft them?
- 16 A. To create them, you have to have lots of study 17 of Schenkerian analysis, yes.
 - Q. And one of your principal tasks at the Center or at the Journal was to make and create these graphs, correct?
- A. We'll have to qualify that one a little bit.
 I never really made graphs as part of my role as an
 editor. As part of my independent research or as part
 of my work with Dr. Jackson, certainly, that's true. But
 I don't think someone who -- someone who works for the

MR. ALLEN: Thanks to Opposing Counsel for bringing that up.

- Q. So just back to Levi Walls, do you know what role then he started to play in the Journal going forward from this time where you announced you're stepping back?
- A. Yeah. His role was to take over the reins and communicate with the advisors in order to move forward with the Journal. That's the way I understood it.
- Q. Was there going to be a transition period where you brought him on as a kind of mentor?
- A. I can't remember if it was Dr. Brand or Dr. Jackson and Slottow that asked me to help, but one of those people asked me to help. I can't honestly remember if it was Dr. Brand or Dr. Jackson asked me to show Levi certain things about the Journal.
- Q. Based on your direct experience or conversations with Mr. Walls, did he seem enthusiastic about the new position?
- A. It's hard to say. It's hard to say. I'm not really sure how enthusiastic he was or not.
- - A. Very few, very few.
 - Q. Well, if you can remember back to those few

1 conversations, what did he say?

- A. I mean, our conversations were very practical.
- ⊙. Um-hum.

- A. Things like what software would you use to take an article from manuscript through publication.
- Q. And to cut to the chase, was it focused on the craft of publishing these articles?
- A. It was a lot more focused on the craft of publishing the articles than it was the substance or, yeah, the craft of the practical matters.
- Q. At any point in this transition time -incidentally, when was it decided -- so there's a
 transition period. You announce you are going to
 withdraw from the Journal. You talked to Benjamin Brand
 about that in the fall of 2019, correct? And then you
 have a subsequent meeting -- sorry, I just realized I was
 relying on you nodding your head.
 - A. Correct.
- Q. And then you had a subsequent conversation with Professor Jackson and Professor Slottow?
 - A. Correct.
- Q. And that involved, at some point, having these very practical conversations with Levi Walls, correct?
 - A. Those happened after.
 - Q. And at that time when those happened, what time

```
are we talking, if you can remember? What month? What time period?
```

- A. Let's think. Probably October, beginning of October, I want to say.
- Q. Okay. Did Professor Walls -- excuse me. Did Mr. Walls raise any concerns about a power differential between him and Professor Jackson at that time?
- A. He did not raise them to me specifically, but -- he may have been concerned about it, but he didn't raise it to me.
 - Q. Did you raise those issues with him?
- 12 A. If I had any issues, I would have brought them 13 straight to Benjamin Brand.

- $\mathtt{A}.$ I want to say that I did.

- 18 Benjamin Brand and I talked about possibly having some
- 19 concerns about the editorship of the Journal being under
- 20 a graduate student. And I left it to his discretion
- 21 at that point because I didn't feel it was my place
- 22 to comment any further on it. And it sounded like
- 23 Dr. Jackson wanted Levi Walls to take over the Journal.
- 24 That's the best way I can summarize it.
- 25 Q. Did you ever speak in your -- I'm talking about

- Q. Did you ever speak with Professor Jackson about his conception of why there should be a graduate student editor?
 - A. Not extensively.
 - Q. At all?
- A. I mean, I can speculate, but I really don't think that we had a lot of conversations about why there would be a graduate student editor.
- Q. Did Timothy Jackson ever tell you he wanted a graduate student editor, so he could dominate the editor?
- 13 A. No, I don't think he ever explicitly stated 14 that.
 - Q. Did he ever say he wanted a graduate student editor, so that that editor could gain experience and connections in the profession?
 - A. That sounds reasonable. But I don't know if he ever said it. That's a good question.
 - November of 2019. Do you remember a conference by the Society of Music Theory in 2019 in the November, early November, time frame?
- 24 A. I have very, very little memory of it, 25 partially because we had just had our baby girl.

- 2 A. And we tried really hard to get a baby girl.

- 14 Q. Was this your first child?
- 15 A. This was our second.
- 16 Q. Second.
- 17 A. So we had a young one in addition to the 18 newborn.
 - Q. And did this -- these family obligations also play a role in your desire to step back from the Journal?
- 21 A. I think it definitely played a part, you know,
- 22 even if it was unstated. I was trying to really organize
- 23 my time effectively to keep family and work both, you
- 24 know, intact.

- A. Personally, I was really just concerned about my daughter, and I wasn't really paying that close attention. You know, I'm under oath. And if I'm going to say -- I wasn't paying that close attention to the direct reaction to Ewell's plenary.

 - Q. What did you talk about?
 - A. I just asked him about his experience or his conversations about the conference.
 - Q. Um-hum.
 - A. And he mentioned that Ewell gave a talk. And

```
we just casually scratched the surface of what the talk was about. We didn't really get into the details. We just had a short conversation about it. It wasn't -- it wasn't too in depth.
```

- Q. Do you remember him ever saying that he realized he agreed with Ewell's paper?
- A. I got the -- I got the impression that he was unsure of how he really stood and probably wanted to take some more time to sort out his thoughts. But yeah, that's really all I can say.

(Deposition Exhibit Number 3 marked.)

- Q. I want to introduce as Exhibit 3 in the record. This is a document dated November 25th, 2020, called the Ad Hoc Panel Report. Now, I'm just going to represent to you that it has some stamps on the top. Do you see that top line with some string of letters and numbers?
 - A. Yes.

- Q. Those are stamped by the Court, and it has Exhibit D because this was previously introduced in the record.
- But if you look down to the second page, it has the UNT logo, and it says Ad Hoc Panel -- Review Panel. Do you see that?
 - A. That is the title, yes. Ad Hoc Review Panel.
- Q. Have you seen this document before?

I skimmed it after it came out. 1 Α. Back in 2020? 2 Q. Yes. 3 Α. I just want to -- I'm just going to go by the 4 0. page ID numbers that are in the upper right-hand corner. 5 Do you see those? 6 7 Yes. Α. Stamped by the Court. We're doing this for the 8 Q. Court --Yes. 10 Α. -- so I guess we'll use their page numbers. 11 Q. 12 Sure. Α. Can you go to 272, please, Professor Graf? 13 Q. 272. Okay, yeah. 14 Α. So there's a summary that refers to you here 15 Q. and up to Mr. Walls. 16 17 It says, Mr. Walls reported to the panel that 18 he raised concerns to Dr. Jackson about the content of 19 the pieces. And do you understand by that, he's referring 20 to pieces that appeared in the Journal of Schenkerian 21 Studies as part of the Symposium in the Volume 12? 22 I didn't write this, but that feels like what 23

And you were working with Mr. Walls on

getting the Symposium in 2020 published, correct?
          Yeah.
                 I had a very minimal role, but yes.
     Α.
          Well, and I want to get to that in a minute.
     Ο.
           But I just want -- I just want to make sure
we don't get lost in some of the references that are
midway through the report. But I'm going to represent
to you that that does refer to the articles that would
eventually appear in the Journal of Schenkerian Studies,
in the Symposium, in Volume 12.
           So again, it says, "Mr. Walls reported to the
panel that he raised concerns to Dr. Jackson about the
content of the pieces as well as the quality of writing
in February of 2020. He stated that after raising
concerns, he was taken into Dr. Jackson's car where
Dr. Jackson told him that it was not his 'job to
censor people' and was told not to do it again. He --
and Dr. Jackson told him that since these were senior
scholars, their reputations were enough to vet them.
Dr. Graf -- in other words, you -- confirmed that Levi
Walls shared information about his encounter with
Dr. Jackson around the time of its occurrence."
           Did I read that correctly?
          I think there was one thing that you misspoke

where it said, he said Dr. Jackson told him. But other

than that, yes.

             And I'm not trying to misread it.

- Q. And what -- I know you're unsure, so I'm just going to ask you. To the best of your recollection as you sit here today, what was the suggestion that something be censored? Whose suggestion was it? What was supposed to be censored? Anything you can remember about it.
- A. That's a good question. Levi may have had some concerns about some remarks in the articles. And what I would have done and what I did is tell him to direct those back to Dr. Jackson or to Dr. Brand if he really had concerns, yeah.
- Q. Did he tell you he was forced into Dr. Jackson's car?
- A. I don't know. That's a really hard -- I really didn't think too much -- I really -- without being able to confirm the situation, I didn't think that it was proper to really act on that.
 - Q. You certainly didn't report it at that time as some kind of harassment, right?
- 24 A. No, because I didn't know whether it was true 25 or not.

- Q. Mr. Levi Walls is a full-grown man, correct?
- 2 A. Yes, as far as I understand.
- In your personal experience of Dr. Jackson, is

6

- 5 A. No, not necessarily.
 - Q. Is he a physically intimidating man?
- 7 A. I wouldn't say he's very physically 8 intimidating, no.
- 9 Q. He's sort of an elderly professor at this time, 10 isn't he?
- 11 A. I don't know how old Dr. Jackson is, but you 12 could say that he's one of the older professors.
 - Q. And he's bald, correct?
- 14 A. Mostly.
- Q. With kind of like liver spots on his bald head?
- 16 A. Sure. We'll say 80 percent bald from my 17 perspective, from my angle.
- 18 Q. Is it fair to say that he's got a kind of 19 potbelly?
- 20 A. A little bit, sure.
- 21 Q. Do you find it plausible that he was so 22 intimating, that he could force Mr. Walls into his car?
- 23 A. Yeah, I don't know. That's a tough question.
- 24 I don't know if he could actually force somebody into his
- 25 car. I don't know.

- Some of the articles in the Symposium were very critical of Professor Ewell, correct?
 - A. As I recall, yes.
- 17 Q. But some were also very supportive of Professor 18 Ewell, right?
 - A. Yes, I think that's fair to say.
- 20 Q. So he was putting the author, Clark, in the 21 supporters of Professor Ewell camp?
 - A. I guess Levi was, yeah.
- Q. I'm just representing that to you, that he testified to that under oath.
 - A. Okay.

So if there was discussion of censorship, 1 Q. do you have any reason from Mr. Walls to know why 2 Mr. Walls would have been asking about censoring a 3 pro-Ewell author? 4 I don't really have anything to add to that, 5 no. 6 7 You have no knowledge? - A. I may have been aware of that through just rumors.
- \bigcirc . And it certainly wouldn't be -- let me put it this way.

Dr. Jackson, according to Dr. Levi Walls' testimony, meets with him in a car, in a parking lot somewhere at UNT. Mr. Walls brings up Suzanne Clark's contribution, which is pro-Ewell. I don't know what specific criticisms he had, but Professor Jackson said not to censor that pro-Ewell article. So much is the testimony of Levi Walls.

If I'm getting this wrong, Benjamin Walton can correct it on redirect when he examines you.

Do you think that was the proper decision for Professor Jackson to make, not to censor a pro-Ewell contributor?

- A. It's really hard to say without reading the details of that article and figuring out what the process was leading up to that moment. That's really all I can say.
- Q. Would you be in favor, as the editor of the JSS, of Professor Jackson censoring an article that he didn't agree with, just because he didn't agree with it?
 - A. I don't think it's fair to censor someone just

```
based on a simple disagreement.

- 12 I would characterize it as a response that may Α. be considered more critical. 13

           Don't you think it's significant that the
panel should mention that the very thing Professor
Jackson was instructing Mr. Walls not to censor were
the articles that were pro-Ewell with which he disagreed?
                MR. WALTON:
                             Form.
          The way I understand, the panel was geared
towards evaluating the processes that went into the
publication. And as far as the panel understood, that
was something worthy of note.
     Q.
          Why wouldn't they mention the fact that he was
refusing to censor contrary viewpoints to his own?

Q. It would certainly be significant in the process of editing a journal if an influential member of the advisory board was trying to squash opinions that he didn't agree with, right?

MR. WALTON: Form.

- A. I don't know what the goal of the car conversation was. I don't -- it may be oversimplifying it to say that it was trying to squash something or censor something.
- MR. ALLEN: I'll tell you what. Let's -- I think we're up to 4. Can I mark as Exhibit 4 for the record, a compendium of emails that begins with UNT Bates number 2645 and has a lead email dated October 17, 2020, from Timothy Jackson to John Ishiyama and others.

(Deposition Exhibit Number 4 marked.)

- Q. Now, again, Mr. Graf, I'm not suggesting that you have seen this before. I'm going to represent to you that the people on the "To" line in this email, if you look at Exhibit 4, are the members of the ad hoc panel.
- A. I can -- I can't really verify that they were the exact people, but it appears to be so.
 - Q. And at some point, you met with them, correct?
 - A. I did meet with the ad hoc panel.
 - Q. Right.

- A. Yeah. I can't recall the exact names, but I did meet with the ad hoc panel.
- Q. So this is an email from Timothy Jackson conveying to them various documents as part of that investigation that you just discussed. Okay?

So far, so good?

- A. Yeah. It's titled number 2. Editorial Process of JSS, Volume 12.
- Q. Now, this has various emails between you, Mr. Walls, Mr. Professor Jackson, and various other people as the Journal was going through the ordinary course of its business.
- So now, I'm going to ask you to turn to UNT 2758 in that packet, if you could, please.

 - A. Yeah. That's really hard to recall that.
- Q. Okay. Well, that's okay. Let me ask some follow-up questions.
- Do you remember Mr. Walls ever coming to you and complaining that he was being forced to work on the Symposium in the November or December time frame?

- A. Music Theory Spectrum is the leading journal of the Society for Music Theory, in my opinion.
- Q. As someone who was active in that field and also the editor of a specialized journal in music theory, is it unusual for Music Theory Spectrum to publish things without peer review?
- A. That would -- from my perspective, I don't know the inner workings of Music Theory Spectrum. But I would expect them to follow a peer review, some sort of peer-review process.
- Q. So if they didn't in the case of Professor Ewell, that would have been a deviation from your expectations of their normal process?
- A. As far as I can tell, I don't know what happened with Ewell's article after the plenary. But you know, my expectation would be that it would go through some sort of vetting or peer-review process.
- Q. Okay. So we skip down. The next email is December 1st, 2019, at 7:51 p.m.

Q. And it says, "Dear Bakulina and All. That does seem to complicate matters a bit."

```
And that's by Levy -- Levi Walls, excuse me.
1
   Did I say that right?
2
             Yes.
3
        Α.
             And he seems to also confirm that the
4
        Ο.
   announcement was made that these papers would be
5
   published in Spectrum before they were even delivered
6
7
   to the panel.
              That's what Ellen Bakulina described, correct?
8
             Yeah, it appears to be in her email.
9
        Α.
10
             Then do you remember the subsequent discussion,
        Ο.
   which is continued by Professor Bakulina, about whether
11
12
   to go forward with the JSS call for papers as planned?
             I don't really recall a lot of discussion on
13
        Α.
   it.
14
             Okay. And so the next message is
15
   December 1st, 4:53 p.m. It seems like some of them
16
   either might be unusually stamped or they may be out of
17
18
   order.
19
             Okay.
        Α.
             But I just want to call your attention to the
20
        Q.
   one that begins at the bottom of that page. Do you see
21
          Ellen Bakulina to Walls, Jackson, Graf, Cubero,
22
   that?
   Slottow.
             And this appears to be two different emails.
23
   For some reason, Timothy Jackson is listed twice. Do you
24
   see that? This is at the bottom of UNT 2657.
25
```

- A. I see -- oh, yes, I do see that he appears twice there in the "To" line.
- Q. That's not important. The thing I wanted to call your attention to, is that your correct email there that we discussed earlier?
- A. That is my correct email.
- Q. Okay. So whenever that email appears in an email, then you received it, correct?
 - A. Yes.

2

3

4

5

6

7

9

- 10 Q. Okay. And Timothy then responds, "All things considered, JSS should go forward with the call as planned."
 - Do you see that subsequent email?
- 14 A. I do.
- 15 Q. At 10:06 p.m.?
- 16 A. Yeah. This is on 2658.
- oh, geez, to the sixth line, the body of the email that begins on UNT 2658. Do you see that "- and we definitely should publish it" line?
- 21 A. Yes.
- 22 Q. So he says, "We definitely should publish it."
 23 He then says, "More responses have promised
 24 and have even been requested. Therefore, if others are
 25 interested in responding, but wish to wait for the

```
published version of Ewell's talk, then they are welcome
 1
   to do so, and we should be open to publishing additional
2
   responses to that version in a subsequent issue after the
   upcoming one of the Journal of Schenkerian Studies.
 4
   Best, Tim."
 5
               Did I read that correctly?
6
 7
              Yes, you read that email correctly.
        Α.
              And do you remember responding to that email?
 8
        Q.
              I don't really remember it.
9
        Α.
10
              The next email is from you, correct?
        Q.
              Yes.
11
        Α.
12
              Do you believe that is not -- has not been sent
        Q.
   by you?
13
              No. I think I did send that.
14
        Α.
              And you say, "I agree with Tim."
15
        Q.
               Right?
16
              Um-hum.
17
        Α.
              Did you feel you couldn't say you didn't agree?
18
        0.
19
   I mean, strike that question because of the double
20
   negative.
21
               Did you have any reason to volunteer that
   information based in coercion of any kind?
22
              I didn't really feel comfortable elaborating on
23
   my personal viewpoint.
24
              At that time?
25
        Ο.
```

A. At that time, no.

- Q. Well, I'm asking you to elaborate now. Is there some reason you felt compelled to chime in at that time that said you agree with Tim?
- A. There's no particular reason either way other than it seemed like this is the way Dr. Jackson wanted it to happen, so I felt it was best for me to follow what he wanted to do at that point.
 - Q. Did you feel you couldn't express dissent?
- A. To an extent, yeah. I didn't really want to express my dissent.
- Q. Were you lying when you said you agreed with Timothy Jackson?
- A. No. I just didn't feel like I could fully express myself.
- Q. Did you feel the need to express yourself by agreeing with Timothy Jackson at this time when you said you were trying to withdraw as much as possible from the affairs of the Journal?
- A. I just had a brief, succinct response that I thought was not going to interfere with the affairs of the Journal from my position of trying to take a step back.
- \circ . Let me -- one further question about emails in this body of documents that were considered by the

```
University of North Texas so-called ad hoc panel.
1
               If you could turn to 2697, please?
2
              2697.
3
        Α.
              And I'm going to direct your attention to an
4
        0.
   email at the bottom of that page.
5
              Sure.
6
        Α.
7
              This appears to be an email from you to
        0.
   schenker@unt.edu. Or no, I guess it's from
   schenker@unt.edu, right?
9
              It is from the official Schenker email.
10
              That was going to be my next question. That
11
        0.
12
   schenker@unt.edu, that's the official email for the
   editor?
13
              I'm not really sure who used that email.
                                                          0n
14
        Α.
   occasion, I used it as editor, yeah.
15
              And is this an email you sent?
16
        Ο.
              It appears to be something that I sent, yes.
17
        Α.
18
              And it looks like this is March 14th, 2020, and
        0.
19
   things are wrapping up with getting the special Symposium
   out for publication.
20
21
              Yes, I was trying to collect materials from
   some of the authors, it appears.
22
              Is that why there are three, 1), 2), 3), sort
23
   of bullet points that you are asking for the final
24
   information?
25
```

Yes. 1 Α. And you also say, Levy -- Levi -- excuse me --2 "Levi Walls has done excellent work on this volume, and 3 the Journal will be in good hands as he takes over sole 4 editorship of the JSS." 5 Right? 6 7 Yes. Α. Were you impressed with the work of Levi Walls 8 Q. on the Journal up to this time? I was referring to his work on the software, 10 his familiarity with the process of getting manuscripts 11 12 into the correct software formatting. And then you go on -- well, just to follow that 13 Q. And that was all very good work by him, right? 14 The way I understood it, he did a good enough 15 job to take over the reins. And I really felt like I was 16 done at that point. 17 18 And you also commented in this sentence Ο. after that. 19 20

"In my view, the additional content that we collected this winter following Ewell's SMT plenary makes a great addition to an already remarkable publication."

Right?

21

22

23

24

- A. Yes. That was a little bit of -- yes.
- Q. Were you lying?

```
No.
 1
        Α.
                    MR. WALTON:
                                  Form.
 2
              I wasn't lying.
 3
        Α.
              And you -- finally, you end the email, "Cheers
 4
        0.
   getting this to press."
 5
               Right?
6
 7
              Yes.
        Α.
              You also -- there's an email right below that.
8
        Q.
   It looks like you write to Barry Wiener. Am I mistaken
   about that?
10
              Let's see.
11
        Α.
12
              On March 20th.
        Q.
              On March 20th, Ben Graf wrote to Wiener.
13
        Α.
               I don't see an email address from that, but...
14
              It seems to be copied and pasted into this
15
        Q.
   massive document that was submitted to the UNT ad hoc
16
   panel.
           Do you remember writing and corresponding with
17
18
   Barry Wiener?
19
              I don't honestly remember the correspondence
   with every author, because I was just trying to get them
20
21
   to sign the forms. You know, my role was very minimal
   there at the end, just to get everyone to sign their
22
23
   forms.
              Um-hum.
24
        Q.
25
              Get it off to press.
        Α.
```

- - A. Possibly.
 - Q. Do you remember doing that for Barry Wiener?
- A. I really don't remember Barry's article. I could not cite specific parts of it. But a lot of times, when I finished out the publication, I would say thank you for your contribution or something like that.
- Q. Do you remember telling the ad hoc panel that you didn't read all of the articles?
- 11 A. Yes.

9

- 12 Q. Was that true?
- 13 A. That's true. I did not read every article word-for-word.
- 15 Q. Was it expected that you would read the article?
- 17 A. I don't think there was a clear expectation.
- 18 Q. Was there a division of labor in the Journal 19 for the Symposium?
- 20 A. For the Symposium? Was there a division of 21 labor? Not really.
- 22 Q. Do you know if Mr. Walls read all of the 23 papers?
- 24 A. I'm not sure.
- 25 Q. Do you know if Professor Jackson was relying on

you to read the papers?
1
              I don't know what he was relying on.
2
              Do you know if Mr. -- or Professor Jackson was

   relying on Mr. Walls to read the papers?
4
5
              I don't know for sure. I don't know for sure
   what he was relying, no.
6
7
              If the editor of a journal doesn't read the
        Ο.
   papers, is that the -- I mean, is that the supervisory
8
   board's fault?
9
                    MR. WALTON:
                                 Form.
10
              I'm not sure whose fault it would be for
11
   certain things like that.
12
                    MR. ALLEN:

19
                    MR. ALLEN:

20
   few more series of questions, a few more documents, and
21
   then I hope to get you off to lunch.
22
               I'm going to introduce for the record as

 - Q. Well, this is pretty clear.
 - You say, "I think we should send Ewell a copy and invite him to respond."

Right?

- A. You were saying respond via the Journal in an informal and formal way. I didn't really clarify how to go about doing such a thing.

- 2 A. I do.
- 3 Q. And did you create the blue bubble there?
- 4 A. Yes.
 - Q. And those are your words to Philip Ewell?
- 6 A. This is my message to Phil Ewell.
- 7 Q. Were you friends on Facebook or something of 8 that nature?
 - A. It appears that we were, yes.
- 10 Q. So you know you -- you knew you could reach out 11 to him directly at this time?
- 12 A. I took it upon myself to reach out to him.
- 13 Q. Were you able to reach out to him before this 14 time via Facebook?
- 15 A. I'm not really sure. I'm not really sure what 16 our status was.
 - Q. When did you become connected to Professor Philip Ewell on Facebook to the best of your knowledge?
 - A. Just with this message.
- 20 Q. Have your ever corresponded with him before?
- 21 A. Not that I can recall.
- 22 Q. And you say here, "I want to apologize to you and emphasize that although I stepped down and am no longer involved, the JSS would likely welcome a response from you."

Did I read that correctly? 1 Yes. 2 Α. And you say, "We felt uneasy about the 3 Q. situation from the beginning." 4 Right? 5 Yes. 6 Α. 7 What did you feel uneasy about? Q. I felt uneasy about the transition from me 8 Α. stepping down and maybe having to step up. 9 And is that what you told Philip Ewell here? 10 Q. That was one part of it. 11 Α. 12 But you didn't tell that to Philip Ewell here, Q. did you? 13 No, I didn't feel like it was necessary. 14 Α. You said, "We got significant pressure from the 15 Q. advisory board and some members of the editorial board." 16 17 Correct? 18 Yes. Α. 19 And yet the email we looked at seemed to be Mr. Q. Walls speaking on your behalf, asking about pro-Ewell 20 contributors. 21 Do you remember that email? 22 I think so. 23 Α. I'm just going to try to find it. That was the 24 Q. 25 email in the Exhibit 4. Do you remember that? From

```
February 13th.
1
               Do you remember that email we read when
2
   Dr. Graf and I writes Mr. Levi Walls, "Were wondering
3
   what your thoughts were concerning the submission from
4
   Clark, Beaudoin, and Lett. And as you may have seen,
5
   these responses are at least implicitly
6
   anti-Schenkerian."
7
               Do you remember that?
8
              The way I remember that, that was Levi
9
        Α.
   speaking, not me.
10
              That was Exhibit 4, correct?
11
        Ο.
12
              That was in...
        Α.
              So the controversy, it seemed, at that time was
13
        Q.
   that there were pro-Ewell contributions, correct?
14
             Well, that was Levi's wording, so I can't
15
   really -- I can't really clarify what he was saying by
16
   that.
17
18
              Did you ever discuss with Professor Ewell what

20
              Not that I remember.

6
7
        Α.
              I had heard a rumor about inviting Ewell to be

13
              I'm not sure.

Journal of Schenkerian Studies during that meeting? 1 Not the details of the JSS, no. 2 Α. MR. ALLEN: I'm going to mark as 3 Exhibit 7 an email thread with the lead email being from 4 Benjamin Graf to John Ishiyama on the 14th of September, 5 2020. Could I mark that as Exhibit 7 for the record? 6 7 (Deposition Exhibit Number 7 marked.) So Professor Graf, before we get started, I 8 Q. know I'm bouncing around a little bit, but I'm going to take you back to your meeting with the ad hoc panel, 10 which we discussed earlier today. 11 12 Okay. Α. Do you recognize this document? 13 Q. Yes. 14 Α. And is this an email from you to John Ishiyama? 15 Q. 16 Yes, it appears to be. Α. And you knew at this time that John Ishiyama 17 Q. 18 was the head of the so-called ad hoc panel, correct? 19 Right. Α. And what was the purpose of your sending this 20 Q. email to Professor Ishiyama? 21 I'm not really sure. It seemed like I was just 22 Α. saying thank you for your time. 23 You said you felt better about having spoken 24 Q. about it, correct? Incidentally, did you know that they 25

```
1 were taking notes on their meeting with you?
```

- A. I wasn't sure, but I guess they probably did.
- 3 Q. Did they -- sorry. I didn't mean to interrupt you.
- 5 A. Given their output, it seems like they probably 6 did take notes.
 - Q. Did they ever share their notes with you to seek any clarification if they were correct or anything of that nature?
 - A. I don't think so.
 - Q. Did they tell you they were recording the conversation they had with you in any way?
- 13 A. I'm not sure.
 - Q. You don't remember that they did, though?
 - A. I don't really know if they did or did not.
- 16 Q. So this email refers to something you attached.

- 21 Q. Right. That's what I'm going to ask you about.
 22 Do you know what was attached?
 - A. No, I can't remember what was attached to that.
- 24 Q. So if you skip to the -- in the nature of 25 emails, let's say skip to the bottom, 2504, UNT 2504.

```
There's an email that begins on the previous page from John Ishiyama to you. Do you see that one?

A. Does it begin, Dear Professor Graf?
```

- \circ . Yes. Now, do you remember this being an email that invites you to meet with the ad hoc panel?
 - A. Yes.

Q. And then if you skip to the very end of the document, the last page marked UNT 2505, there's -- so a standalone, what looks like an email from Timothy Jackson or at least a text with Tim at the bottom.

"All the best, Tim."

Do you see that?

- A. Yes.
- Q. Now, that is in series with the previous documents. And so I'm just going to represent to you that it's often in the nature of emails that the big body of the email is followed by the attachment.
- A. Yes.
- Q. So my question is to try to confirm if that was the attachment that you referred to in the header email.
- 21 A. I don't really know today thinking back on it. 22 I was just trying to do what the panel asked of me.
 - Q. Do you remember sending this text to the panel?
 - A. Not really.
 - Q. It says, "The responses, which if you read

them, were pretty well evenly split between pro- and

9
              It's hard to say. Without having more of a
10
   hand in it, I don't really know if you could say they
11
12
   were evenly split.

17
18
              I don't remember that, no.
        Α.
             And Timothy Jackson says, "The majority of the

20
   from the Chair of the Harvard Music Department to the

an email with the Bates stamp JACKS 089828.
                                              It has the
heading, Timothy Jackson to Diego Cubero. And cc'd,
among others, are also yourself, Benjamin Graf.
                  (Deposition Exhibit Number 8 marked.)
          So I just want to go over this quickly.
     Ο.
I'm going to draw your attention to the third paragraph
in that top line email.
           Is that the same text, which we just read,
that seems to have been collected by the ad hoc panel?
          It appears to be.

Q. Do you have any reason to -- strike that.

Can you give any reason why the full email wasn't included to the ad hoc panel?

- A. I don't really know.
- Q. If an email was excerpted, that would have been you who excerpted it and sent it to the panel, correct?
- A. That could have been. I was just trying to address what the panel was asking.
- Q. Why would that cause you to excerpt only a portion of an email rather than including the whole email?
- 13 A. I'm not really sure. You'd have to ask the 14 panel.
 - Q. In the top line email there, Timothy Jackson represents to Diego and his colleagues, "To reply directly to your query: Stephen, Ben, Levi, and I read through and edited every word of the responses very carefully."

Right? Didn't he say that?

- A. I see that.
- Q. But that doesn't appear in the portion of the email sent to the ad hoc panel, right?
 - A. No.
- Q. This is the last series of questions. Every

deposition has the best part at the end.
1
              Sure.

                    MR. ALLEN:

                    THE REPORTER:

                      (Deposition Exhibit Number 9 marked.)

7
              I'm going to mark as Exhibit 9 an email from

   Peter Kohanski to Benjamin Brand.
               Now, you'll see a little funny stamp down in

   concern us here. I'm just going to ask you really quick.
13
   Do you recognize this at all?
14
              No.
15
        Α.
             Can you skip down to the next page? Do you see

   answer if you think you've received or read this before?

             When did you see this before?

              I saw this. I read through this document as

part of my preparations for today.

             Okay.
                    Had you seen it back in 2020?
2
             I had seen it back in 2020, although it would
3
   be hard for me to pinpoint the exact context.
4
5
             Did you ever support the graduate students in
        Ο.
   their circulation of this petition?
6
7
        Α.
             No.
                   But I think it would need more
   clarification.
                    MR. ALLEN: All right. Let me mark as

   Exhibit Number --
10
             Professor Graf, did I mark that as Exhibit 9?
11
        Ο.
12
             This is Exhibit 9.
        Α.
                    MR. ALLEN: I'm going to mark as
13
   Exhibit 10 -- this is an email from you, Professor Graf,
14
   on July 30th, 2020, at 3:10 p.m., to various faculty
15
   members.
16
                      (Deposition Exhibit Number 10 marked.)
17
18
             And while I ask you questions about this,
        Ο.
19
   I'm going to ask you to go into the stack and pull up
   Exhibit 3, which is the November 25th, 2023, Ad Hoc Panel

   Report. And you'll see at the end, there are various
21
   exhibits to that report. If you turn to the back.
22
             Are you referring to Exhibit 3?
23
             I am.
                     I'm referring to the exhibits at the

the document I've just designated as Exhibit 10.

   excuse me. Did I get that wrong? No.
                                             It is Exhibit 10.
2
               So first of all, Exhibit 10, do you recognize
 3
   this document?
 4
              Yes.
 5
        Α.
              And what is this document?
 6
        Q.
 7
              This is an email about a faculty statement.
        Α.
              And is that faculty statement that you are

        Q.
   pleased to sign, as it says in that first line, is that
   the exhibit to the Ad Hoc Panel Report, which was
10
   attached as their Exhibit 4?

                    MR. ALLEN:
                                 Thank you.
                                             I do.
13
              It's JACKSON 228 as Bates number.
14
        Q.
15
              Yes.
        Α.
              So you're at JACKSON 228, correct?

        Q.
              Yes.
17

18
              And that is your signature on this long list of
        0.
19
   people who signed this letter, correct?
              Yes, I signed this statement.
20
        Α.
21
              You're sort of sixth in position, I suppose?
        0.
              Yeah.
22
        Α.
              And this is the statement that's referred to in
23
        0.
   Exhibit 10, correct?
24
25

          And it's dated July 30th, 2020, in this

          In this form that, it's reprinted by the
university's ad hoc panel, it says at the top, "Statement
of UNT faculty on Journal of Schenkerian Studies, Friday,
July 31st, 2020."
           Do you see that?
          Yes, July 31st, 2020.

- 5 A. It seems so, yes.
 - Q. And by doing that, you particularly, as an individual, endorsed what was said in that statement, the faculty statement?
 - A. I did sign the faculty statement, yes.
 - Q. So my next question is if you skip forward in the exhibits to the UNT ad hoc panel report to JACKSON 226, there's something captioned Exhibit 3 by the ad hoc panel. Do you see that?
 - A. Yes.
 - Q. And it says, "I am sharing this statement on behalf of a cross section of graduate students in the division of music history, theory, and ethnomusicology."

Can you confirm that that is the student statement, which is the URL link embedded in the faculty statement?

- A. It looks like it is.
- 22 Q. Do you have any reason to think that is not the 23 case?
- 24 A. No.
- 25 Q. I believe that statement is still up online.

So if we clicked on the URL, we could get it again unless
1
   it's been taken down. Correct?

   call for action outlined in that student letter that is
5
   attached to the Ad Hoc Panel Report?
6
7
        Α.
              Yeah.
                     I think the intent was just to support
   our graduate students.
              Do you know what the call for action outlined
